

COMPRESSED AIR INDEX, VOL. I.

MARCH, 1896—FEBRUARY, 1897.

	PAGE	NO.
Agnosticism of Trolley Car	81	6
Air and Water, by Dr. Pohle	131	9
Air Brakes	11	2
Air Jets	116	8
Air Power	1	1
Air Power	178	12
Air Pumps	182	12
Air Under Pressure	5	1
Air Volumes	117	8
Alexandria	3	1
American Air Power Co.	172	11
Applications of Compressed Air	10	1
Backward, The New Looking Backward	9	1
Barker's Hill	3	1
Bed—Ancient Air Bed	143	9
Belt Compressor, Illus.	9	1
Buell, J. W.	177	12
Bicycle Air Pump	181	12
Bicycle Run by Electricity	122	8
Boat run by Compressed Air	17	3
Bottle Test—Burst at 5760 lbs.	141	9
Brakes by Compressed Air	94	7
Brakes, Quick Action	5	4
Brush—The Air Brush	146	10
Cars Dumped by Compressed Air	6	4
Cars Run by Air In Chicago	12	2
Cassiers' Magazine, C. O. Heggem.	9	2
Cayley, Sir George	4	1
Cenis, Mt., Tunnel	4	1
Chapin Mines	6	1
Chaquette, Chas.	108	7
Chaquette Compressor, Illus.	109	7
Chicago Drainage Canal	3	1
Chicago Drainage Canal	136	9
Cleaning Clothes by Comp. Air, Illus.	137	9
Cleaning Car Cushions by Air	4	4
Clock by Comp. Air	136	9
Colladon, Prof.	123	8
Communications	116	8
Communications	154	10
Communications	186	12
Communications, Chas. P. Paulding	155	10
Communications by Jas. MacNaughton	107	7
Communications, J. S. Sherman	155	10
Communications by P. B. Sweeney	17	4
Communications by Robert Hardie	9	3
Communications by Robert Hardie	82	6
Communications on Comp. Air	20	4
Communications on Pohle Pump	83	6
Compressor—A Diminutive Compressor		
Run by Electricity	134	9
Compressor, First used in U. S., Fig. 10	125	8
Compressor of Novel Design	108	7
Compressor used by Sonmeiller at Mt. Cenis Tunnel, Fig. 7	123	8
Compressor 4 stage, I. S. D. Co., Fig. 8	7	5
Compressors vs. Pumps for Shop Use	80	6
Compressed Air	1	1
Compressed Air	163	11
Compressed Air	178	12
Comp. Air Cars Running in N. Y.	147	10
Comp. Air Cont'd, by W. L. Saunders	6	2

	PAGE	NO.
Comp. Air cont'd, by W. L. Saunders	7	3
Comp. Air cont'd, by W. L. Saunders	18	4
Comp. Air cont'd, by W. L. Saunders	76	5
Comp. Air cont'd, by W. L. Saunders	89	6
Comp. Air cont'd, by W. L. Saunders	100	7
Comp. Air cont'd, by W. L. Saunders	123	8
Comp. Air cont'd, by W. L. Saunders	138	9
Comp. Air cont'd, by W. L. Saunders	150	10
Comp. Air cont'd, by W. L. Saunders	171	11
Comp. Air cont'd, by W. L. Saunders	181	12
Comp. Air Crane, Illus.	118	8
Comp. Air Crane, Fig. 3	120	8
Comp. Air for Cranes and Hoists, by Wm. Frellwitz	118	8
Comp. Air Destined to Become a Rival to Electricity	174	12
Comp. Air vs. Electricity	179	12
Comp. Air and Electricity, C. D. Canal	136	9
Comp. Air and its Economies in Foundry	104	7
Comp. Air—Impressions Made, St. Car	84	6
Comp. Air, Its Uses and Advantages	159	11
Comp. Air and Its Freaks	6	3
Comp. Air in Machine Shops and Foundry	9	2
Comp. Air N. Y. R. R. Club	154	10
Comp. Air Plant at Jerome Park	95	7
Comp. Air for Power Purposes	69	5
Comp. Air, Power Purposes, F. C. Weber	12	3
Comp. Air, Power Purposes, F. C. Weber	13	4
Comp. Air as a Public Supply, by Frank Richards	86	6
Comp. Air without Technique, by J. Crabtree	121	8
Comp. Air vs. Trolley—J. S. Tobey	156	10
Comp. Air, Underground Work, by W. M. Treglowen	10	3
Conveying Comp. Air 10,860 ft.	6	1
Conveyor, Air, Patented	122	8
Correspondence	2	1
Correspondence	93	6
Correspondence on Comp. Air	18	3
Cost of Pumping with Pohle Pump	167	11
Ctesibus	3	1
Cutter—New Bolt Thread Cutter	106	7
Defender by Comp. Air	6	3
Description of the 9½ inch improved Air-Brake Pump	184	12
Drill and Reamer	162	11
Drill—Breast Drill Run by Air	159	11
Dry Docks Worked by Com. Air	16	3
Dubois & Francois, Figs. 8 and 9	124	8
Early Attempts to Use Comp. Air	175	12
Early Pneumatics	3	2
Economies by C. W. Shields	67	5
Efficiency of an Air Plant Increased, by F. C. Weber	171	11
Electric Dynamos Cleaned by Air	172	11
Elevators, Ridgeways	10	4
Encouragement from Engineers	2	2
Excavating Cesspools by Comp. Air	167	11
Excavating 7,000,000 cu. yards of Earth and Rock at Jerome park	96	7

	PAGE	NO.
Experiments of Geo. Westinghouse . . .	11	2
Experiments of J. N. Weaver, M.M. . .	180	12
Experiments by Robert Hardie . . .		
Experiments of S. E. Jarvis, Comp. Air Motor . . .	91	6
Fire Alarm Whistle . . .	178	12
Foundry Worked by Comp. Air . . .	7	4
Freezing in Comp. Air Pipes . . .	158	11
Freezing in Comp. Air Pipes . . .	173	12
Furnace—Blast Furnace, Fig. 1, by R. H. Sweetzer . . .	148	10
Future of N. J. . .	149	10
Galileo . . .	154	10
Geiger, A., Engineer . . .	3	1
General Mines . . .	16	3
Genesis of Comp. Air . . .	2	1
Gorrie, Dr. John . . .	3	1
Guns—Dudley's Air Guns . . .	175	12
Hardie Air Motor . . .	130	9
Hardie Air Motor . . .	99	7
Haupt, Gen. Herman . . .	128	9
Heggen, Chas. O. . .	5	3
Hersent, French Engineer . . .	105	7
Hoist for Mercantile Purposes . . .	12	2
Hoists and the Applications of Comp. Air . . .	112	8
Hoist at Edison, N. J., Lifting Rock Weighing 8,660 lbs. . .	118	8
Hoist and Hose Drum, Fig. 2 . . .	157	10
Hoist showing Trolley and Hose, Fig. 1 . . .	112	8
Hoisting a 3-ton Rock, Jerome Park . . .	112	8
Hydraulic Air Compressor, Fig. 14 . . .	98	7
Ideas . . .	139	9
Information . . .	94	7
Information of Comp. Air . . .	111	8
Information on Comp. Air . . .	3	4
Information on Comp. Air . . .	59	5
Information on Comp. Air . . .	78	6
Information on Comp. Air . . .	128	9
Information on Locomotives from Coal Trade Journal . . .	11	1
Information, F. L. Pope . . .	11	1
Information on Uses of Comp. Air . . .	1	3
Jeddo Tunnel . . .	3	3
Kirby, Mr., and what he says on Com. Air . . .	6	1
Locks—Pneumatic Door Locks . . .	94	7
Locks—New Canal Locks . . .	111	8
Locomotives Run by Comp. Air . . .	17	3
Locomotives for Handling Cotton . . .	11	1
Losses by Heat . . .	6	3
Machine for Painting . . .	135	9
Machine Shops . . .	78	6
Machine Shops and Uses of Air . . .	3	1
Maloy, Frances, Article . . .	64	5
Maloy, Frances, Article . . .	4	3
Medhurst, Geo. . .	59	5
Medhurst, Geo. . .	59	5
Medhurst, Geo. . .	4	3
Merchandise, Unloading . . .	113	8
Meter for Air Compressors . . .	77	6
Metropolitan Traction Co., Tests of Hoadley Motor . . .	134	9
Mine Hoist at Edison, N. J. . .	157	10
Mining Coal . . .	7	1
Mortier, M. . .	163	11
Motor Car in N. Y. . .	78	6
Motor Cars in Use, Wash., D. C. . .	11	3
Murray, Geo. R. . .	169	11
Nason, Carleton W. . .	113	8
Nicaragua Canal . . .	3	3
Omnibus, des Compagnie . . .	8	1
Papin, Dr. . .	175	12
Papin, Dr. Denys, Air as a Transmitting Power . . .	4	3
Parsons, Chief Engineer of Broadway Underground Road . . .	1	2
Pat. Device, by S. W. Vaughn . . .	148	10
Pelton Water Wheel, dia. 22 ft., weight, 25,000 lbs., capacity, 2,800 ft. per min. . .	133	9
Perkins, Dr. . .	99	7

	PAGE	NO.
Pierce, N. J.	165	11
Plants—Central Air Plants . . .	145	10
Plants—Long Distance Air Plants . . .	145	10
Pneumatic Belt Shifter . . .	10	2
Pneumatic Clipper . . .	12	4
Pneumatic Dispatch Tubes . . .	88	6
Pneumatic Dispatch Tube Co., London, Conveying mail 3,080 yds. . .	4	3
Pneumatic Drill at Work . . .	1	12
Pneumatic Gun and Power Co. . .	114	8
Pneumatic Horse Collars . . .	108	7
Pneumatic Rivet Driver . . .	160	11
Pneumatic Track Sander . . .	161	11
Pneumatic Tube Co. . .	59	5
Pneumatic Tubes in Phila. P. O. and Stock Exchange, carrying 48,000 letters per hour . . .	88	6
Pneumatics in Early Stages . . .	4	3
Poem—The Dancing of the Air . . .	136	9
Pohle Air Lift Pump . . .	4	4
Pohle, Dr.—Cut of Dr. Pohle . . .	132	9
Pohle Pump in Operation, Newark, N. J. . .	133	9
Popp, M. V. . .	8	1
Portland Mining Co., Air Pump by E. Biddisen . . .	84	6
Power of Air . . .	3	1
Power Yielded . . .	176	12
Production . . .	6	1
Ptolemies . . .	3	1
Pump Air and Its Creator . . .	3	1
Pumps vs. Compressors for Shop Use . . .	80	6
Pumping by Comp. Air . . .	61	5
Pumping with Pohle Pump and Costs . . .	166	11
Quarries at Jerome Park . . .	97	7
Reamer—Air Drill and Reamer . . .	162	12
Regulators—Pressure Regulators . . .	136	9
Reheater—Ingersoll-Sergeant, Fig. 9 . . .	71	5
Reheater—Parke's, Fig. 11 . . .	72	5
Reheaters, Fig. 10 . . .	71	5
Reheating Air at Jerome Park . . .	97	7
Report of Arthur De Wint Foote, C. E. to Am. Soc. Civil Engineers . . .	77	6
Report of Test of Hardie Motor . . .	84	6
Reservoir at Jerome Park . . .	95	7
Right and Wrong Way to place Com. Air in Competition with Electric Power for Street Railways . . .	65	5
Riveter—Portable Riveter . . .	160	11
Roentgen Rays . . .	186	12
Run by Air . . .	4	2
Ruth Pneumatic Car Furnishings . . .	142	9
Sand Blasts Cleaning Castings . . .	11	4
Shaw, Philander . . .	4	1
Sheep Shearing in Australia . . .	5	2
Shields, C. W., Reading at Phila. . .	7	4
Ship Run by Air, U. S. Navy . . .	114	8
Shops . . .	9	1
Shops, P. R. R. . .	134	9
Shops, W. S. R. R., 22 Air Hoists . . .	116	8
Societe de Industrie l'Minerale of France . . .	163	11
Steel Bottles . . .	98	7
Sterilized Air for Preserving Fruits . . .	99	7
Sterling, Dr. . .	4	1
Stone Carving and Dressing at Plainfield, N. J. . .	129	9
Stone Cutting by Air Tools . . .	86	6
Storage of Air . . .	2	3
Sturgeon, Mr., England . . .	150	10
Switch—Pneumatic-Electric . . .	111	8
Style Compressor . . .	5	1
Tables—Air Hoist Tables . . .	9	4
Temperature of Admission at Compressor Inlet . . .	170	11
Test of Mannesmann Steel Bottles . . .	141	9
Theory of Duplex Air Compressors, Fig. 13 . . .	138	9
Thilorier . . .	5	1
Tools, Pneumatic . . .	10	1

	PAGE	NO.
Tools--Pneumatic Tools	129	9
Tools for Stone Working	19	4
Tools--Woolstencroft	122	8
Tramway	8	1
Transmitting Power and Its Advan- tages	163	11
Transmission	6	1
Transmission through Pneumatic Tubes	185	12
Trolley	8	1
Trolley--Disadvantages of Short Line Trolley	1	3
Trolley Has a Rival	10	2
Tunnel at Gothard, 1872	123	8
Turntables by Comp. Air	4	4

	PAGE	NO.
Underground Road in N. Y.	1	2
Use of Comp. Air at Blast Furnace Plant	147	10
Uses of Air, by McConnell, W. R.R. Club Ventilating Tunnels	159	11
Views of a Non-Expert	1	2
Water and Air, by Dr. Pohle	4	1
Water Wheel, Weighs 10,500 lbs and 110 Revolutions per min.	131	9
Weber, F. C., Lecture	77	6
Weber, F. C., Lecture	13	4
Weber, F. C., Lecture	22	3
Weber, F. C., Lecture	69	5
Wegmann on Water Supply, N. Y.	5	2
Whistle by Air for Fire Alarm	17	3
Whiting Air Hoist	10	4
